

- Class A/1 (Rhodopsin-like receptors)
- Cytokine-cytokine receptor interaction
- NABA SECRETED FACTORS
- blood vessel development
- regulation of endopeptidase activity
- Peptide GPCRs
- NABA ECM GLYCOPROTEINS
- humoral immune response
- Adherens junctions interactions
- Immunoregulatory interactions between a Lymphoid ;
- protein processing
- regulation of response to biotic stimulus
- T cell activation
- regulation of cell activation
